

SOUND TILE - TJF WATERPROOF TILE JOINT FILLER

DESCRIPTION :

Soundtile - TJF is a premixed waterproof cement based joint filler for all kinds of tiles suitable for internal / external use and available in various shades.

COMPOSITION :

Manufactured using high quality white portland cement blended with chemicals, additives, fade free pigments for long lasting durability.

BACKGROUND PREPARATION :

It is recommended to fill the joints of the tiles after 48 hrs of fixing tiles. Grooves should be properly cleaned devoid of dry additives or any loose particles. Wetting of joints with water at least 15 to 20 minutes before applications of joint filler is essential.

Mixing :

In a clean bucket using potable water mix 25 kg of joint filler with approximately 7.5 Ltrs of water to achieve a homogeneous mix. It is recommended to use a mechanical mixer for this purpose for 1 kg water required will be approximately 0.3 Ltr. Please ensure the correct amount of water is always used for mixing.

Application:

In a clean bucket using potable water mix 25 kg of joint filler with approximately 7.5 Ltrs of water to achieve a homogeneous mix. It is recommended to use a mechanical mixer for this purpose for 1 kg water required will be approximately 0.3 Ltr. Please ensure the correct amount of water is always used for mixing.

CONSUMPTION / COVERAGE :

The nature of coverage depends on the size and thickness of the tiles and also joint width. However as an example it can be noted that for a tile having a size of 150 X 150 X 5 mm with a joint width of 2mm, 1 kg will cover approximately 55 Sq. Ft.

CURING :

It is recommended to keep the joints area moist for a period of 2 days.

PACKING :

It is recommended to grout after 48 hrs of tiling with Soundtile – Joint filler.

STORAGE :

Can be stored under shaded dry condition for a period of 12 months.

WARRANTY :

If applied as per the recommendation in the product data-sheet, Soundtile - TJF is guaranteed for the purpose of which it is recommended . We can not assume responsibility of misuse of our products . we assume no responsibility for the finished work as we have no control over factors such as mixing, application, background preparation, whether and other condition that may prevail at the time of applications.
