

SOUND CURE - CC

CURING COMPOUND CLEAR

Description

SOUND CURE CC is a resin-based, high water and UV-resistant clear coating for evaporation prevention of concrete.

Product Information

Appearance	White liquid
PH	7.5 -9.0
Specific Gravity	1.05 + - 0.05
Performance Data	ASTMC - 156; C - 309
Dry film Appearance	Clear
Loss of Water	< 0.55 kg / m ²
Drying Time	less than 3 hours
Packaging	5 kg, 10 kg, 30 kg
Consumption / Coverage	Approx 40 - 60 sq. ft. / kg under ideal conditions

Salient Properties & Uses

- Excellent bonding on concrete with high tensile strength
- Imparts good abrasion resistance with excellent waterproofing properties
- High crack bridge capability up to 1mm
- High penetration due to low particle size
- Excellent scrub resistance & high efficient curing
- Used as primer for protective coating
- Non-degrading membrane
- It eliminates the need to water the concrete surface for curing and forms a sealing and protective membrane that retains enough moisture in the concrete to ensure full hydration of the cement which is required for optimum strength development

Surface Preparation & Application

The surface should be sound and properly finished, without any gouges, dirt, dust, oil, grease and foreign matter. The surface should be damp (not wet). Membranes can be applied using a brush, roller, or spray.

Handling & Storage

- Store the product in sealed containers in a dry environment with temperatures between 5 - 35 °C in shaded areas
- Keep out of direct sunlight & frost
- Close the container tightly to avoid contamination
- Test compatibility with other products to prevent issues

Shelf Life

6 months when stored as above

Technical Assistance

The technical team at Sound Build Care Pvt Ltd. is ready to assist you anytime in case of any technical queries

Warranty

If applied as per the recommendation in the product datasheet, SOUND CURE - CC is guaranteed for the purpose of which it is recommended. We cannot assume responsibility for misuse of our products. We assume no responsibility for the finished work as we have no control over factors such as mixing, application, background preparation, weather and other condition that may prevail at the time of applications.
