

SOUNDBOND - NC

TWO-COMPONENT WATERPROOFING COATING

Description

SOUNDBOND NC is a two-component, acrylic-polymer modified cement-based coating consisting of SoundBond Powder and Sound Aid acrylic emulsion, requiring only additional water at site when mixed in recommended proportion. It provides an easily brushable coating to provide waterproof and damp-proof properties.

Product Information

Chemical Base	Two-component Polymer base acrylic Agent
Packaging	23 kg powder & 4 litres liquid
Appearance / Colour	Grey / White
Shelf Life	6 months from date of production under cool & dry conditions
Density	1.85-2 kg per litre
Toxicity	Non Toxic
Workability	30-40 mins
Adhesion To Concrete	1N/mm ²
Consumption / Coverage	1.2-1.6 Kg / M ²

Advantages

- Suitable for both concrete & masonry to arrest leakages
- Provides a breathable, aesthetic surface with a seamless finish
- Excellent adhesion to the underlying surface
- Minimizes crack formation
- Suitable for vertical & horizontal surfaces
- Can be plastered or screed over the applied surface

Areas of Application

- Basement walls
- Ceiling & floors
- Underground shafts
- Fountains
- Retaining walls
- Swimming pools
- Water tanks
- Reservoirs & other areas where such application is required

Application Process

Thoroughly clean the surface before applying Soundbond-NC. Mix 23 kg of SOUNDBOND-NC powder with 4 Litres of SOUND AID and 4 litres of water to create a brushable slurry. Apply a single coat evenly with a clean brush. Additional coats can be applied after 8 to 10 hrs. Use the prepared mix within 30 minutes. Allow SOUNDBOND-NC to dry for 5 to 7 days before applying any decorative coatings. Protect from direct sunlight for 72 hrs.

Technical Assistance

The technical team at Sound Build Care Pvt Ltd. is ready to assist you anytime in case of any technical queries

Warranty

If applied as per the recommendation in the product data-sheet, SOUNDBOND - NC is guaranteed for the purpose of which it is recommended. We can not assume responsibility for misuse of our products. We assume no responsibility for the finished work as we have no control over factors such as mixing, application, background preparation, weather and other conditions that may prevail at the time of applications.
