

SOUNDRELEASE - NR FORM WORK RELEASE AGENT

DESCRIPTION :

Chemically formulated mould release agent for easy stripping of form work and moulds.

ADVANTAGES :

Owing to its excellent properties the demoulded surface is extremely smooth and even leaving no stains.

PROPERTIES :

The thin film of the release agent prevents the cement slurry to stick to the form work leaving the concrete surface also without the coating of the release agent.

APPLICATION :

Please ensure the surface of the form work clean using a brush or a spray equipment apply evenly without diluting the material. A very thin coating is sufficient. Please ensure that the coated surface is protected from dust and direct sunlight. It is advisable to use the coated surface as soon as possible. However the properties are not affected even if the surface dries out.

CONSUMPTION / COVERAGE :

25 TO 65 Sq. M² per Ltr depending upon the background quality.

PACKING : 5,30 & 200 Ltrs .

STORAGE : Can be stored upto 12 months in original container under shaded and dry condition..

WARRANTY :

If applied as per the recommendation in the product data-sheet, Soundrelease – NR is guaranteed for the purpose of which it is recommended . We can not assume responsibility of misuse of our products . we assume no responsibility for the finished work as we have no control over factors such as mixing, application, background preparation, whether and other condition that may prevail at the time of applications.
